PRATIK GHODKE

Software Engineer | Mobile & Full-Stack Developer

Pune, Maharashtra, India • pratikghodke03@gmail.com • +91 9762878326 • linkedin.com/in/pratikghodke

github.com/pratikg36 • **Interactive Portfolio:** pratikg36.github.io/PratikGhodke

PROFESSIONAL SUMMARY

Software Engineer with ~2 years of experience leading full-stack product lifecycles across cross-platform mobile engineering (**Flutter/Dart**) and enterprise backend microservices (**Java, Spring Boot, PostgreSQL**). Proven track record leading commercial applications from system design to **Google Play Console** release and production Linux deployment. Specialized in modular state management with **Riverpod**, resilient networking with **Dio**, **JWT/RBAC** authorization, **Liquibase** database migrations, and scalable RESTful API design.

TECHNICAL SKILLS

Languages: Dart, Java (Java 21/17), TypeScript, JavaScript, SQL, HTML5, CSS3

Mobile & Frontend: Flutter, Riverpod (StateNotifier, AsyncNotifier), Dio (Interceptors), Material Design 3, OpenStreetMap & Geocoding, Vite, React

Backend & Microservices: Spring Boot 3.x, Spring MVC, Spring Security, Spring Data JPA, Hibernate ORM, RESTful APIs, Liquibase Migrations, DTOs

Security & Real-Time: JWT Authentication, Role-Based Access Control (RBAC), OTP Verification, Server-Sent Events (SSE), WebSockets

Databases & Cloud: PostgreSQL (Multi-Schema, Query Optimization), MySQL, MongoDB, Docker, AWS (EC2, S3), Linux, Nginx

DevOps & Tools: Google Play Console (AAB Releases), Git, GitHub, Maven, Gradle, Postman, Swagger/OpenAPI, IntelliJ IDEA, VS Code

PROFESSIONAL EXPERIENCE

Software Engineer (Full-Stack & Mobile Lead) | NeoPace InfoTech LLP *Feb 2026 – Present | Pune, India*

- **Full-Stack Leadership:** Led mobile frontend and backend microservices architecture across commercial client applications in **Flutter, Dart, Java Spring Boot**, and **PostgreSQL**.
- **Neo Parlour (Salon SaaS):** Engineered multi-role appointment scheduling engine handling customer booking flows, salon holiday schedules, date/time slot validation, and service status tracking; designed Spring Boot REST APIs with DTO validation and status enums.
- **NeoCloudBites (Delivery App):** Developed cross-platform Flutter application featuring dynamic menu browsing, cart state management, and an interactive **OpenStreetMap location picker** with reverse geocoding for precise delivery address selection.
- **Resilient Networking & Flags:** Implemented modular **Dio** networking layer with custom interceptors for automated JWT authorization, error normalization, and remote feature flags for controlled rollouts.
- **Play Store Release:** Managed end-to-end mobile release pipelines, packaging signed Android App Bundles (**AAB**), meeting Google Play compliance, and deploying to the **Google Play Console**.
- **NeoSowInfra (Enterprise Web):** Built secure Spring Boot backend services with **Liquibase** database migrations, custom PostgreSQL schemas, and granular RBAC authorization; deployed full-stack Vite frontend and APIs to production Linux servers.

Software Developer | Proser Digital Solutions *Jul 2025 – Jan 2026 | Pune, India*

- **Cross-Platform Development:** Built responsive, cross-platform mobile and web applications using **Flutter and Dart**, interfacing with complex backend REST APIs.
- **State Management:** Implemented client-side state architecture using **Riverpod**, establishing clean separation of concerns between business logic and UI layers and authoring reusable widget components.
- **Performance & CI/CD:** Optimized cross-device rendering performance, reduced UI frame drops, and managed team version control workflows using **Git and GitHub**.

Software Developer Intern | Tayan Solution *Feb 2025 – Jul 2025 | Pune, India*

- **LMS Backend Optimization:** Improved Learning Management System (LMS) execution performance by 20% through database query refactoring and architecture optimization using **JSP, Servlets, and JDBC**.

KEY SOFTWARE PROJECTS

NeaLife — Online Psychometric & Psychological Assessment Platform *Java 21, Spring Boot 3, Spring Security 6, PostgreSQL, AWS, Docker*

- **Lead Backend Systems:** Solely architected and delivered the enterprise backend in **Java 21 & Spring Boot 3** for an online psychometric evaluation platform (1,300+ assessments, 3,000+ career role mappings), alongside supporting React frontend integration.
- **Scoring Engine & RBAC:** Engineered real-time psychometric trait matrix algorithms computing multi-dimensional cognitive/behavioral percentiles; established Spring Security 6 RBAC isolating Students, Corporates, Government, and Partner networks.
- **PostgreSQL Multi-Schema Tuning:** Integrated multi-schema database architecture (`nealife-dev`), eliminated HikariCP connection `search_path` bugs, and optimized query execution plans, dropping API 500 errors by 35% and cutting query latency from 640ms to 42ms (-93%).
- **Automated PDF Vault & Cloud:** Built dynamic PDF assessment report generation delivering secure documents via pre-signed AWS S3 URLs; containerized services via multi-stage **Docker** builds deployed on **AWS EC2** with Nginx reverse proxy.

EDUCATION & CERTIFICATIONS

Master of Computer Science (M.Sc.) — Savitribai Phule Pune University *CGPA: 7.60 | 2022 – 2024*

Bachelor of Computer Science (B.Sc.) — Savitribai Phule Pune University *Percentage: 83.22% | 2018 – 2021*

Certifications: Generative AI Certification (Technical University of Munich) • Java & Advanced Java (CWS Technologies)
